

Workshops, conferences, seminars, exhibit organized (2017-22):

Selected few are enlisted here:

- 'Lifestyle Management of Non-Alcoholic Fatty Liver Disease-A Dietitian's Perspective', 8th April 2022.
 - 'Assessing Nutrient Intakes', 5th March 2022.
 - 'The way ahead for good health: Can Ayurveda be our lamp shedding its light for the 21st century?', 21st September 2021.
 - 'Yoga for Health and Fitness', 18th September 2021.
 - 'Dietetics Informatics and Digitalization', 20th April, 2021.
 - 'Functional clothing: The Future of Apparel Industry', 5th April 2021.
 - 'Literature Review and Defining the Research Problem', 1 April 2021
 - 'Research Publication Process: An Editor's Perspective', 1 April 2021.
 - 'Hands-on Bioinformatics workshop', 12-13th April 2021.
 - 'Basics of Python', Skill enhancement training on 26-31st March 2021.
 - 'Structure based Drug Designing and Discovery', Hands-on workshop on 22nd March 2021.
 - 'Primer designing and In-Silico PCR' on 15th March, 2021.
 - 'Malaria Invasion Biology: What it takes to enter?' and 'Innovations in Infectious Disease Research: Challenges and Opportunities', on 6th March 2021 "Diet Assessment Made Easy – Demonstration of DietCal" Webinar on 30th January 2021.
 - 'Bioinformatics -concepts and applications,' 18 to 19 September 2020.
 - Workshop on "Research Roadmap and Scientific writing" Ms Shruti Bhargava in June 2020.
 - 'Research Methodology', 4th May to May 15th, 2020 .
 - 'Role of MHC Complex in Biology and Medicine', 24th April'2020.
 - Webinar on Masters Abroad- Global Opportunities For Career Growth" on 5th April,2020
 - 'Oxidative Stress: Effect on Protein Folding', 28th February'2020.
 - 'Empathy campaign – Empowering people against Hepatitis' Workshop and awareness program Lecture, 20th February, 2020
 - 'Gene cloning and Protein expression; December 2019, One-week training programme on in School of Biotechnology, in JNU.
 - 'Nanobiotechnology: Drug delivery for cancer', 13th September, 2019.
 - 'PCR and ELISA: Techniques in molecular Biology and Immunology', 7th February' 2019
 - 'Prognostic and Therapeutic Relevance of Cysteine Cathepsins in Myeloid Leukaemia', 26th September, 2019.
 - 'Introduction to Bioinformatics' A five-day short-term course from 20th – 27th December,2018.
 - 'Introduction to Bioinformatics and its applications', on 2nd February 2018.
 - 'Replacing Regulatory Experiments on Animals: Introduction to In Silico Models and In Vitro Test Methods", 26th -27th October 2017
 - 'Training on Introduction to NCBI and its tools', on 25th Oct 2017.
 - Two-day national workshop "Introduction to Clinical Biochemistry"12-13 September 2017
 - Eight module course on 'Holistic Life Management 'Life is a game: Play it' by Satya Sai Values based Programme for 2017-18, 2018-19 and 2019-20
- **Details given in Report**
