WOMEN'S EQUALITY DAY

26th AUGUST 2024

Her voice, once silenced, now resounds,
In every vote, in every round.
Through struggle fierce, she claimed her place,
With courage strong and endless grace.
No longer bound, no longer still,
She shapes the world with iron will.
Her right to choose, her voice so bright,
A beacon in the darkest night.

Author: Anonymous

***Women's Equality Day* is celebrated on August 26th, to commemorate the adoption of the 19th Amendment to the U.S. Constitution in 1920, which granted women the right to vote. This day is a reminder of the long and challenging struggle for women's suffrage and serves as a celebration of the progress made towards gender equality.**

In India, it was on November 26, 1949, when the Constituent Assembly of India adopted the Indian Constitution. This laid the foundation for democratic governance and equality, including the right to vote for women. This date is also significant as it marks the day when the Constitution was formally adopted, establishing the framework for rights and liberties for both men and women in independent India.

In essence, Women's Equality Day symbolizes the ongoing pursuit of gender equality, honoring the progress made while inspiring future efforts to achieve complete equality for women in all areas of society.
